OUR PROCESS

How We Turn Your Idea Into a Revenue Machine.

No surprises. No scope creep. No junior developers learning on your dime. Here's exactly what happens from the moment you reach out:

01 **Free Strategy Call (30 min)**
We listen. You walk us through your workflows, bottlenecks, and frustrations. We ask about your revenue, margins, and where you're losing time. No sales pitch. Just strategy.

02 **Fixed-Price Scope & Proposal**
Within 48 hours: exact deliverables, timeline, and cost with line-item detail. No hourly billing surprises. No scope creep. What we quote is what you pay.

03 **Build & Iterate Weekly**
We build in 1-week sprints. Every Friday, you see a live demo. Your feedback shapes the next sprint. You're never in the dark. Average build: 2-4 weeks.

04 **Launch, Train & Support**
Deploy to production. Train your entire team (recorded sessions included). 90 days post-launch support at no extra charge. Bug fixes, feature tweaks, phone support — all included.

Our Guarantee
If we don't deliver what we quoted, you don't pay for the difference. We eat it. Period.

Stop Leaving Money on the Table.

Custom software that automates your sales, captures more revenue, eliminates busywork, and runs your business the way you actually work.

- ✓ Automate lead follow-up — never drop a deal again
- ✓ Generate proposals in minutes, not hours
- ✓ One dashboard: sales, ops, invoicing & reporting
- ✓ Get paid faster with auto-invoicing & online payments
- ✓ Replace 5+ disconnected tools with one platform
- ✓ Built around your exact workflow — zero compromise

THE REAL COST

Your business is leaking revenue right now.

Conservative estimates based on businesses like yours — losses that don't show up on a P&L until too late:

$4,200/mo Dropped Leads	Without automated follow-up, teams drop ~30% of leads. At $280/lead, that's $4,200/month walking out the door. Your competitors auto-respond in 5 minutes.
$2,800/mo Manual Proposals	4 hrs per proposal × 3/week = 46 hrs/month of copy-paste. That's a full-time employee doing what software handles in 20 minutes.
$1,500/mo Tool Fragmentation	5 disconnected SaaS apps × $300/mo avg = $1,500 in tools that don't share data. Plus 8+ hrs/week re-entering information between systems.
$6,000/mo Slow Invoicing	A 9-day delay on $200K in receivables costs thousands. Late invoices have 3x higher non-payment rates. You're funding your clients' float.
$1,800/mo Blind Decisions	You don't know your true profit per client, cost per lead, or close rate. Every growth decision is a guess. One bad guess costs $20K+.

CONSERVATIVE ANNUAL WASTE
One platform pays for itself in 60-90 days.

$195K+

WHAT WE BUILD

One Platform. Built Around How You Actually Work.

Sales & Lead Management (CRM)
Track every lead from first touch to close. Automated follow-up. Pipeline dashboard. Lead scoring. Source tracking. Close rate analytics.
✓ 40% fewer dropped leads in 60 days

Operations Dashboard & Workflow Hub
One screen: project status, team workload, deliverables, revenue tracking, and tasks — all connected. Replace the 5 tabs you have open.
✓ Real-time visibility into every moving part

Smart Invoicing & Payment Collection
Auto-generate invoices from completed work. Online payments via Stripe/ACH. Auto-reminders. Aging reports. QuickBooks/Xero sync.
✓ Paid 9 days faster on average

Proposal & Estimate Generator
Template-based with your pricing and branding. Build proposals in 20 min instead of 4 hrs. E-signature integration. Conversion tracking.
✓ 4 hours → 20 minutes per proposal

Client Portal & Communication Hub
Branded login for clients: project status, approvals, payments, and messaging. Reduces "where are we at" emails by 80%+.
✓ 2.8x increase in qualified lead conversion

Reporting & Business Intelligence
Profit per client. Revenue by service. Close rates by source. Team utilization. Monthly P&L. Custom report builder. Export to CSV/PDF.
✓ Complete financial clarity in real time

+ API Integrations · Data Migration · License Mgmt · Custom Workflows · Mobile-Optimized · Training · 90 Days Support

THE DIFFERENCE

Why businesses choose us over the alternatives.

vs. Freelancers & Fiverr
They: Disappear mid-project. No business ops knowledge. Single point of failure. No testing. You get code, not a working system.
Us: Full team. Architecture to deployment. 90 days support. We don't ghost.

vs. Agencies ($150K+ budgets)
They: Junior devs doing senior work. 6-month timelines. Hourly billing that always exceeds estimates. Account managers who don't write code.
Us: Senior-only engineers. Fixed-price. 2-4 week delivery. You talk directly to the builders.

vs. Off-the-Shelf SaaS
They: Reshape your biz to fit the tool. $500+/mo that grows yearly. Features you don't need. Missing ones you do. Data held hostage.
Us: Built around your exact workflow. You own the code and data. No monthly fees. Zero compromise.

FROM CALL TO LAUNCH

Week 1	Week 2-4	Week 5+
Free call. Learn your biz. Fixed-price quote in 48hrs.	Build in sprints. Demo every Friday. Your feedback drives it.	Launch. Train your team. 90 days support included.

Your competitors aren't waiting.

Free 30-min strategy call. We'll map your workflows and identify the biggest ROI opportunities.
