FULL-STACK CAPABILITIES

One Team. Every Layer.

Front end to database. Auth to payments. CI/CD to monitoring. We own every layer — because a platform that breaks at any layer breaks everywhere.

FRONTEND & UI

Next.js 15+ · React 19 · TypeScript · Tailwind CSS · Framer Motion · SSR & Static Gen · Progressive Web Apps · Responsive design · Lighthouse 95+.

API & BUSINESS LOGIC

Node.js · Express · Route Handlers · REST & GraphQL · WebSocket real-time · Rate limiting · Validation · Background jobs · Webhook integrations.

DATA & STORAGE

PostgreSQL · MySQL · MongoDB · Prisma ORM · Redis caching · Migrations · Automated backups · Query optimization · Full-text search.

PAYMENTS, AUTH & SECURITY

Stripe (cards, ACH, subscriptions) · JWT & session auth · RBAC · OAuth/SSO · HTTPS/TLS · OWASP practices · Encryption at rest & transit.

DEPLOYMENT & INFRASTRUCTURE

Vercel · AWS · Docker · GitHub Actions CI/CD · Sentry monitoring · Auto-scaling · Blue-green deploys · SSL · CDN · DNS management.

QuantLab
SOFTWARE SOLUTIONS

Engineering the Next Level.

Custom software platforms, algorithmic trading systems, and enterprise-grade solutions — built by senior engineers who own every layer of the stack.

- ✓ Full-Stack Custom Platforms (React, Node, PostgreSQL)
- ✓ Algorithmic Trading Bots (<12ms latency, 24/7)
- ✓ Enterprise CRM, ECM & Operations Dashboards
- ✓ Payment Systems (Stripe, ACH, subscriptions)
- ✓ Client Portals, Admin Panels & Reporting
- ✓ API Integrations with Any Third-Party Service

THE REAL COST

What inaction is costing you right now.

Conservative estimates based on real businesses that tried spreadsheets, freelancers, or off-the-shelf tools:

$4,200/mo Dropped Leads	Without automated CRM, teams drop ~30% of leads. At $280/lead, that's $4,200/month. Every lead your competitor auto-responds to in 5 min — gone.
$2,800/mo Manual Processes	Proposals, reports, invoicing, data entry — 46+ hrs/month of work software handles in seconds. That's a full salary going to busywork.
$1,500/mo Tool Fragmentation	CRM here, invoicing there, PM somewhere else. $1,500/mo in tools that don't share data + 8 hrs/week re-entering info between systems.
$6,000/mo Slow Invoicing	9-day delay on $200K in receivables costs thousands. Manual invoicing = late invoicing. Late invoicing = 3x higher non-payment rates.
$3,500/mo No Real-Time Data	No true CAC, LTV, or profit per service line. Every hire/pricing/marketing decision is a guess. One wrong guess costs $20K+.

CONSERVATIVE ANNUAL WASTE
One platform pays for itself in 60-90 days.

$216K+

WHAT WE BUILD

Production-Grade Software That Saves Time, Money, and Headaches.

Custom CRM & Client Management
Full pipeline. Automated follow-up. Lead scoring. Source attribution. Close rate analytics. Communication history. Custom fields.
✓ 40% fewer dropped leads in 60 days

Algorithmic Trading Systems
Multi-strategy execution at <12ms. Backtesting engine. Risk controls. Real-time P&L dashboards. Multi-exchange. 24/7 automated.
✓ <12ms latency · 24/7 uptime · Multi-strategy

Business Operations Platforms
Unified dashboard for sales, ops, finance, and team. Project tracking. Resource allocation. Approval workflows. KPI monitoring.
✓ Replace 5+ disconnected tools with one system

Estimating & Proposal Generators
Template-based with your pricing and branding. Assembly/line-item detail. E-signature integration. Win/loss tracking.
✓ 4 hours → 20 minutes per proposal

Payment & Invoicing Systems
Stripe integration (cards, ACH, subscriptions). Auto-invoicing. Recurring billing. Aging reports. Payment reminders. QuickBooks sync.
✓ Paid 9 days faster on average

High-Performance Web Portals
Client-facing portals with branded login. Project status, doc sharing, payments, messaging. Admin panels with RBAC. Analytics built in.
✓ 2.8x increase in qualified lead conversion

+ License Management · Enterprise Infra · API Integrations · Data Migration · Mobile · Custom Workflows · Training · 90 Days Support

WHY QUANTLAB

The freelancer. The agency. The off-the-shelf SaaS. We're none of those.

vs. Freelancers & Overseas Devs
They: Disappear mid-project. No business ops knowledge. Single point of failure. No deployment expertise. Minimal testing.
Us: Full team. Architecture → deployment → monitoring. 90 days support. Production-grade systems, not prototypes.

vs. Agencies ($150K+)
They: Account managers who don't code. Junior devs. 6-month timelines. Hourly billing that always runs over.
Us: Senior-only. Fixed-price. 2-4 week delivery. You talk directly to the builders. No middlemen.

vs. Salesforce, HubSpot & SaaS
They: Reshape your biz to fit the tool. $500+/mo that climbs. Data locked in their ecosystem.
Us: Built around your workflow. You own the code and data. No monthly fees. Zero compromise.

FROM CALL TO PRODUCTION

Week 1	Week 2-4	Week 5+
Free call. Learn your stack. Fixed-price quote in 48hrs.	Build in sprints. Demo every Friday. Your feedback drives it.	Deploy. Train your team. 90 days support.

Your competitors are already building.

Free 30-min strategy call. We'll scope your project and give you a fixed-price quote.
